

Sprint Review — Sprint 1, Week of Apr 21

Sprint Goals

Include the sprint goals set during sprint planning and evaluate progress as a team.

Implement Flight/Hotel Booking Integration

- Allow users to select their desired hotel to stay at during their travel.
- Allow users to select whether they would like to travel by plane or not.

Implement User Reviews/Ratings

- Allow users to create and read reviews
- Only allow users to write reviews on a travel destination if they have previously traveled there.

Demos

Demo	Feedback
Hotel selection, flight travel method recommendation	Issues with how we are inputting booking data and with booking models, will rework and refactor in Sprint 2
User reviews read and write	No issues

Complete tasks

Flight/Hotel Booking Integration - Partially done, some rework needed in Sprint 2

User Reviews/Ratings - DONE

Upcoming

Work on feature: Cost-effective Trip Planning

Work on feature: Personalized Travel Recommendations

Other things coming: the presentation, documentation, merging feature branches, etc.

Sprint Review — Sprint 2, Week of Apr 28

Sprint goals

Include the sprint goals set during sprint planning and evaluate progress as a team.

Implement Cost-effective Trip Planning

- Display travel options at cheaper price points
- Display travel cheaper price combinations for travel (flight, hotel, destination)

Implement Personalized Travel Recommendations

- Recommend new travel destinations based on previous travel
- Recommended locations should be near previously-traveled locations

Fix flight/hotel booking and integration

- Create a Booking model as a centralized place for all booking information
- Refactor endpoint/controllers accordingly

Misc. tasks

- Presentation, general debugging, merging our branches in the repository, preparing documentation

Demos

Demo	Feedback
Rework and refactor flight/hotel integration	No issues.
Cost-effective travel plans	No issues
Display nearby recommended travel destinations based on previously-traveled destinations.	No issues.

Complete tasks

Cost-effective Trip Planning - DONE

Personalized Travel Recommendations - DONE
Flight/hotel booking integration - DONE
Misc. tasks - Mostly done, see below

Upcoming
